Ambitionierter Finanzanalyst mit fundierten Kenntnissen in Finanz- und Datenanalyse. Erfahrung im Umgang mit Daten, der Identifizierung von Trends und der Anwendung analytischen Denkens durch Selbststudium und praktische Erfahrung. Kürzlich abgeschlossener Zertifizierungskurs zum Finanzanalysten mit den Schwerpunkten Jahresabschlüsse, Kennzahlenanalyse und grundlegende Finanzmodellierung. Hohe Motivation für einen Einstieg in die Finanzanalyse und die Weiterentwicklung in einer datenorientierten

Work Experience

Software Developer

October 2023 - April 2024

Blossom Technologies

- Improvisierte SQL-Abfragen, die die Verknüpfungen mithilfe von Wildcards und gespeicherten Prozeduren optimierten, trugen dazu bei, die Ladezeit der Suchseiten um 67 % zu verbessern.
- Ich entwickelte Automatisierungs-Frameworks für funktionale und integrierte Tests mit Python, Selenium und Cucumber, wodurch die Testabdeckung um 60 % verbessert werden konnte.
- Ich entwickelte Geschäftslogik unter Verwendung geeigneter Datenstrukturen und optimierter Algorithmen und implementierte Dependency Injection mit dem Django Framework.

Software Developer

July 2021 - April 2023

Amazon Web Services

- Systemprotokolle wurden mit RTLA analysiert und Überwachungstools wie CloudWatch und DJS eingesetzt, um Leistungsprobleme während der Rufbereitschaft zu identifizieren und zu beheben, was in der Zwisch
- Documented technical workflows and knowledge to educate newly hired employees.
- Contributed to improving operational work including on-calls, handling sprint estimations and implemented automated testing and deployment processes using tools with AWS Pipelines.
- Revised, modularized, and updated old code bases to modern development standards, reducing operating costs, and improving functionality.

Education

Masters of Data Science(Statistics)

August 2019 - May 2021

New Jersey Institute Of Technology

3.72/4

Skills

Microsoft excel, Data Analysis and Visualization, Financial Modeling & Valuation, Accounting Knowledge, Forecasting & Budgeting, Interactive Dashboard Development, Programming(Python, R, SQL, JAVA)

Projects

Analysis Of Volkswagen Firm Financial Ratios

March 2026 - March 2026

- Applied advanced financial analysis techniques — including ratio analysis, DuPont decomposition, and Altman Z-Score credit scoring — to Volkswagen AG's Annual Reports (2022–2025).
- Deriving insights into operational efficiency, financial health, and divisional performance through segment reporting.

Indirect CFS for Omega Industries

March 2026 - March 2026

- Applied core corporate finance techniques in Microsoft Excel to construct Omega Industries' Cash Flow Statement under the Indirect Method.
- Computing Free Cash Flow to the Firm (FCFF) and Free Cash Flow to Equity (FCFE) to evaluate operational cash efficiency and shareholder value potential.

Baby Care Product Analysis Using Pivot Tables in Excel

March 2026 - March 2026

- Applied data wrangling and business intelligence techniques in Microsoft Excel to convert unstructured Baby Care Products data into a structured dataset.
- Engineering Pivot Tables with Slicer-driven interactivity to deliver manufacturer-level analysis across Value, Volume, Average Pricing, and Year-over-Year Growth performance.

365 Financial Statements

March 2026 - March 2026

- Applied core financial accounting principles in Microsoft Excel to prepare 365 Group's Income Statement and Balance Sheet from its Trial Balance.
- Translating raw ledger data into structured financial statements that reveal key metrics across revenue generation, expense management, asset deployment, liability obligations, and equity standing.

3 Statement Financial Model

March 2026 - March 2026

- Engineered a fully integrated Three-Statement Financial Model combining historical reconstruction and forward-looking forecasting.
- The first milestone translates a trial balance and accounting transactions into structured financial statements.
- while the second milestone applies financial modeling best practices to build a forecast framework grounded in historical data.
- Delivering a complete picture of both past performance and projected financial trajectory.

99 Agency Financial Budgeting

March 2026 - March 2026

- Applied managerial accounting and budgeting principles to construct a fully integrated Master Budget for 99 Agency, a digital agency with dual service offerings in SEO Optimization and Ad Campaigns.
- The project covers the complete budgeting cycle for 2022.
- Translating service-level assumptions and cost structures into a cohesive financial plan that supports strategic decision-making and performance benchmarking.

Certifications

Financial Analyst - 365 Finance
